# EZMaxMobile for Maximo

'State of the Art' mobile solution for Maximo that lowers cost, improves data accuracy and increases productivity.

There is no doubt that smart phones have revolutionised business with innovative touch screens and reliable performance. Mobile computing has become common place mainly because of its ease of use, and the opportunities this presents to streamline data collection and processes through a mobile enabled workforce simply makes good business sense.

**EZMaxMobile** provides any Apple, Android or Windows device with the ability to interact with IBM's Maximo application system in both real-time (connected) as well as offline (disconnected) modes.

EZMaxMobile provides functionality for generating and managing work order, asset, inventory and purchasing related transactions. Scan bar codes, capture GPS coordinates and upload pictures from the device to related service requests, work orders and assets to fully leverage the power of mobile asset management.

## About Clarita Solutions

Clarita Solutions is the exclusive distributor of EZMaxMobile for Australia and New Zealand.

We can assist in establishing a mobile pilot project, implementation and ongoing technical support for your EZMaxMobile and/or Maximo environments.

> " Working with Clarita to introduce mobility has allowed us to combine geographic information with asset management processes when and where our crews need it.
>
> Sunshine Coast Council
